Software QA Engineer

SUMMARY

- Software QA Engineer with 3+ years of experience in functional, UI, and integration testing, specializing in automation planning, reusable frameworks, and CI/CD pipelines within Agile environments.
- Proficient in SDLC methodologies including Smoke, Functional, UI, Integration, Regression, Manual, Localization, Black Box, and Ad-hoc testing.
- Strong expertise in creating and executing detailed test plans and test cases, defect tracking, and regression testing.
- Experienced in collaborating with cross-functional teams to enhance software quality and improve workflows.
- Hands-on experience in API testing, database testing using SQL/MySQL, and integration testing.
- Adept at utilizing tools like JavaScript, Cypress, Jira, Qase.io, Azure DevOps, and Postman to ensure product reliability.
- Passionate about learning new tools and technologies and staying up-to-date with the latest industry trends.
- Strong communication and problem-solving skills, making me an effective team player and collaborator in Agile environments.

TECHNICAL SKILLS

Manual Testing: Test planning, test case execution, defect tracking, regression testing

Bug Tracking System: Jira, Azure DevOps

Test Management System: Qase.io, Azure DevOps

Database: MySQL, SQL, Oracle

Web Testing Tools: Chrome Developer Tool, Safari Developer Tool, Postman

Web Automation Framework: Cypress, Selenium (Exposed to this tool)

Programming Language: JavaScript, Java, HTML, XML, CSS

Platform: Windows, macOS, Cross-browser (Chrome, Safari, Firefox)

Continuous Integration/Delivery Tools: Git, GitHub Actions, Jenkins

IDEs: VS Code, IntelliJ

Performance Testing Tools: JMeter

WORK EXPERIENCE

PLAYBALL | Los Angeles, CA

06/2022 – Present

Software QA Engineer

- Performed both manual and automated testing for web and mobile platforms, ensuring adherence to quality standards.
- Developed and maintained reusable test frameworks for UI and API testing using Cypress and Postman, emphasizing script maintainability.
- Conducted comprehensive regression testing to verify bug fixes and new feature implementations.
- Participated in Agile development processes, attending daily stand-ups and sprint planning meetings.
- Performed database testing using SQL queries to validate data integrity and consistency.
- Collaborated with the development team to identify, troubleshoot, and verify bug fixes through regression testing.
- Utilized JavaScript to automate within the Cypress framework, streamlining manual testing processes, reducing testing time, and increasing test coverage for new and existing features.
- Reduced manual testing efforts by 30% by automating regression test cases using Cypress.
- Set up and maintained CI/CD pipelines to enhance automation efficiency.

- Optimized testing efficiency by reducing time consumption by 20% through API-based automation for login and registration, bypassing UI interactions.

Veev | Hayward, CA
Manual QA Engineer

06/2021 – 05/2022

- Conducted manual testing, developed test cases, and executed test scripts to ensure software quality.
- Documented, identified, and reported software defects effectively, including steps to reproduce and impact analysis to ensure accurate defect information is captured and addressed promptly.
- Worked closely with developers, product owners, and other stakeholders to understand requirements and ensure effective testing.
- Participated in regression testing and provided feedback to improve the overall product quality.
- Assisted in the creation and maintenance of test plans and test documentation, ensuring comprehensive coverage.
- Collaborated with Development team to implement integration testing and backend API validations using Postman.
- Analyzed and reproduced customer-reported issues, collaborating with developers for timely resolution.
- Demonstrated excellent written and verbal communication skills, along with problem-solving abilities.
- Improved overall product quality, reducing defects in production by 20%.

Sina Afghan Tajik Dental Hospital | Kabul, Afghanistan
Sales and Marketing Manager

03/2015-12/2019

- Spearheaded the development and execution of comprehensive marketing strategies, which led to an increase in patient volume and revenue.
- Fostered a culture of excellence by providing leadership to a team that consistently surpassed performance expectations and sales targets.
- Conducted in-depth customer surveys and evaluated feedback to inform creative sales and marketing initiatives.
- Coordinated across teams to increase brand awareness and improve customer experience.
- Cultivated and maintained strong relationships with key clients, agencies, and partners.

EDUCATION

Bachelor of Commerce | Delhi University, India | 2012
Certification in Software QA Engineering | Codemify | 2020
Hardware Engineering Certificate | IIJT, India | 2011
